

Ramakrishna Math and Ramakrishna Mission Belur Math

A Documentary on the Ramakrishna Movement on the occasion of the *125th Anniversary of the Ramakrishna Mission*

Swami Vivekananda founded the Ramakrishna Mission on 1 May 1897. True to the motto he set before the organization, 'आत्मनो मोक्षार्थं जगद्धिताय च' (For one's own liberation and for the welfare of the world), the Ramakrishna Mission, along with its twin organization Ramakrishna Math, is upholding lofty moral and spiritual ideals and serving people all over India and some countries abroad, and has earned widespread recognition.

The Ramakrishna Mission completed 125 years of its glorious journey in 2022. On the occasion of the 125th Anniversary of the Ramakrishna Mission, **Belur Math** headquarters and **ABP Ananda** (a leading Bengali TV news channel) produced a video documentary on the origin, growth and activities of the Ramakrishna Math and Ramakrishna Mission in Bengali and English languages, titled 'মানবতার প্রস্ফুটিত শতদল' and 'Blooming Lotus of Humanity' respectively. The Bengali documentary was released on 1 May 2022, the 125th Anniversary of the Ramakrishna Mission, followed by the English version a few weeks later. The documentary received much appreciation from our devotees and well-wishers.

Subsequently, the documentary was dubbed into a few major Indian languages and foreign languages by the branch centres of the Ramakrishna Math and Ramakrishna Mission. As of today, the documentary is available in the following languages; the links to the same are given below.
